*\*Pass Percentage of candidates who have obtained their Primary Medical Qualification from Pakistan may change slightly with declaration of withheld results of some candidates in due course subsequent to receipt of security clearance.*

*\$Candidates have failed to indicate the name of country of their primary medical qualification in Application form.*

**Note:**

The names of the University/Institute/College of primary medical qualification are chosen by candidates from the offered dropdown details. Some candidates happen to choose "OTHERS" option instead of choosing the University/Institute/College name mentioned in drop down and type the name in an open text box as per their choice. This might be the reason for some of the University/Institute/College appearing more than once in the above report with slight differences in the name. The readers of the report are advised to refer the report accordingly.

The Pass Percentage indicated herein above is based on the analysis of the performance of candidates in FMG Examinations held in year 2022. The analysis might include candidates who would have qualified their Primary Medical Qualifications from respective universities over the years but have qualified their FMGE in year 2022.
