Greetings from **"Admission Advisor"**

Our Mission :- For those looking for hassle free process of getting foreign education, "Admission Advisor" could be the directing force in providing full counseling support to the best of your satisfaction to help you reach the new height in your career through superior education.

Our Philosophy:- To create an educational but communicative environment so that you always find exactly what you are looking for. "Admission Advisor" aspires to be a caring organization to all its constituents with a personal touch.

Study MBBS (Medicine) abroad - is undoubtedly a good choice for those who want to become good doctors. There is no a capitation fee or donations to be paid to the universities abroad. The cost of higher education in these countries is highly regulated and subsidized by the Ministry of Education (MOE). They are very reasonable in contrast to universities in our country.

Studying MBBS Abroad is not only less expensive than India, but colleges there also provide better facilities and teaching atmosphere.

We have always believed that education is the key to building a tranquil earth and advocated that students of our country must carry out at least a part of their education on foreign soil in as much as it would impart to them a sense of universal belonging. Thus, global education will eventually usher in, besides concomitant benefits, the much sought-after global peace, which is what we are after.

We find immense satisfaction in devoting all our time to helping students with proper guidance and information. We believe it is an outstanding opportunity for the thousands of students aspiring to join medical institutions across the globe. To help the budding youth secure their seats, we are running an educational consultancy.

Please note that your decision taken today can never ever have a replay!!! We assure you that the security of your degree & its genuineness will be fully met with and keeping alive your trust on us will be our first priority. You can count on our reputation and utilize it along with our experience in the field for best results.

"Admission Advisor" provides free guidance to its students & wishes you a resounding success.

With Dignatories from KGMA & ISM Kyrgyzstan

Advantages of Studying MBBS Abroad

Danylo Halytsky Lviv National Medical University, Ukraine, Europe

Founded : 16 November 1784 is celebrating its 235 anniversary.

Danylo Halytsky Lviv National Medical University; formerly known as the Lvov State Medical Institute, earlier the Faculty of Medicine of the John Casimir University and before that, Faculty of Medicine of the Francis I University is one of the oldest and biggest medical universities in Ukraine, Europe.

Choosing the place to study medicine, Dentistry and Pharmacy is not an easy way by all means. However, I would like to invite you to attend one of Europe's most challenging medical Universities, the authority of which is well known throughout the world, and in which many renowned individuals were taught or have worked. It is Danylo Halytsky Lviv National Medical University. The University has a truly international and historical atmosphere. Here you can meet and join a company of people with different cultural and religious backgrounds.

One of our primary purposes is to help students achieve the highest academic standards. Most of the University departments are well supplied with educational, diagnostic, medical and scientific equipments. The students are provided with computer classes and Internet access.

Nowadays students have the possibility to overcome the first difficulties on the way of scientific knowledge acquisition under the supervision of experienced professors, scientists, researchers, all those who support traditionally high level of Lviv medical scientific schools.

We would like to welcome all who are interested in joint research programs, international exchange and educational projects. I am sure that our highly motivated and internationally recognized professors will offer the best preparation for medical profession.

Sincerely yours,

Eugene Varyvoda, MD. PhD,
Dean of Foreign Students
