Dear Prospective Doctor,

Special Greetings from "Admission Advisor"

Our vision is simple to state: "Education is the manifestation of perfection already in man" - thus speak the Great Swami Vivekananda. A society in which every member is perfect; is a perfect society. If only the whole world consisted of one society, one such perfect society ..., which is our vision. We see no reason why it shouldn't come true and hence our efforts. We are sure we will be successful in our endeavour.

Our Mission : - For those looking for hassle free process of getting foreign education, "Admission Advisor" could be the directing force in providing full counseling support to the best of your satisfaction to help you reach the new height in your career through superior education.

Our Philosophy: - To create an educational but communicative environment so that you always find exactly what you are looking for. "Admission Advisor" aspires to be a caring organization to all its constituents with a personal touch. We find immense satisfaction in devoting all our time to helping students with proper guidance and information.

We have always believed that education is the key to building a tranquil earth and advocated that students of our country must carry out at least a part of their education on foreign soil in as much as it would impart to them a sense of universal belonging. Thus, global education will eventually usher in, besides concomitant benefits, the much sought-after global peace, which is what we are after.

We believe it is an outstanding opportunity for the thousands of students aspiring to join medical institutions across the globe. To help the budding youth secure their seats, we are running an educational consultancy. "Admission Advisor" in the national capital Delhi. "Admission Advisor" provides free guidance for complete career solutions.

The off and on deception by various fake agencies rendered thousands of students baffled and bewildered and in this situation our services have lit a beacon of hope for them to study Abroad.

As a result of many years of experience in this field, we have made affiliations with different educational and professional institutions Abroad and to keep pace with new technologies and new opportunities we constantly strive to develop a close rapport with more institutes so that our students may have wider range of institutes to choose from to succeed in achieving their cherished dreams in a best possible and easy way.

We welcome you with open heart to come for a face to face interaction with us at our Delhi office to solve any impending query you may have. You can also visit our website [www.admissionadvisor.org](http://www.admissionadvisor.org) for more details or call 09999155591, 09999155501. We will be happy to answer your questions for your best - or email your query to: [contact@admissionadvisor.org](mailto:contact@admissionadvisor.org) or [koulrave@gmail.com](mailto:koulrave@gmail.com)

Please note that your decision taken today can never ever have a replay!!! We assure you that the security of your degree & its genuineness will be fully met with and keeping alive your trust on us will be our first priority. You can count on our reputation and utilize it along with our experience in the field for best results.

"Admission Advisor" wishes you a resounding success!!!

Select the Best, Not the Cheapest

### Advantages in Studying MBBS Abroad

- No Entrance test – Direct Admission
- The studies are in English medium.
- A long list of institutions gives you choice of countries & institutions.
- Admission on rolling basis (first come first admit basis) until seats last.
- Superior method of teaching: Class test conducted regularly.
- Students are taught in small groups for individual attention.
- Affordable fees & the cost of living is low make it affordable for all.
- Indian food is available in most of the places at reasonable rates.
- You only need to meet the eligibility criteria for getting admission.
- Recognized by the Government of India (Medical Council of India- MCI).
- Graduates from our institutions are eligible for Government jobs in India, USA, UK etc.
- There is political, economic and personal safety in Philippines, Ukraine and China.
- Study especially in Philippines & Ukraine is the gateway for developed countries like USA, UK, Canada etc.
- Classes start for first year students in August / September / October or as may be intimated to us by the institution.

Study MBBS (Medicine) abroad - is undoubtedly a good choice for those who want to become good doctors. There is no a capitation fee or donations to be paid to the universities abroad. The cost of higher education in these countries is highly regulated and subsidized by the Ministry of Education (MOE). They are very reasonable in contrast to universities in our country.

Medical colleges abroad have very small and separate batches for local and international students, where the medium of teaching is English.

In addition to affordability, the medical colleges there have robust infrastructure, advanced technology and good living conditions, claim students and doctors.

"Studying MBBS Abroad is not only less expensive than India, but colleges there also provide better facilities and teaching atmosphere." Philippines and Ukraine can be a good stepping stone for people who want to become leading doctors, but do not have the means to do it in India.

However, to be eligible to practice in India, doctors graduating from these universities have to clear a screening examination conducted by the National Board of Examinations under the directive of Medical Council of India.

### Services Offered by Admission Advisor & Other Advantages

Provides assistance & guidance for all documentation required in India for admission process, Visa, Air ticket, Foreign exchange & all required documentation on reaching destination country.

Institution	You will choose the university & country
Admission letter	University will Issue Admission letter in favour of the student.

- FAIMER etc.

The students with medical degrees from Ukraine are permitted to apply for International Licensing exams like USMLE (USA), PLAB (UK), MCI Screening Test as well as in other countries. Graduates can apply for license with Medical Councils of more than 180 countries.

The process of Europe unification has been accompanied by the establishment of a common education and research framework as well as development of uniform criteria and standards in this field within the whole continent. This process is called the Bologna Process.

- ✓ The Bologna Process started on 19 June 1999 in Bologna (Italy). 40 countries are participating Bologna Process.
- ✓ Ukraine joined the Bologna Process in 2005.

Universities in Ukraine are teaching under "**Bologna Process – European Credit Transfer Scheme or ECTS**" that means the course is compatible in all countries of Europe including UK and Germany. The Ukrainian method of teaching is at par with that of the rest of the world and thus students find acceptance in fields of work as well as places of higher education elsewhere.

Ukraine, Europe - Located in Eastern Europe, Ukraine became independent in 1991 with the fall of the Soviet Union.

Ukraine is the second largest country in Europe, with an area of 603,700 square kilometers; a coastline of 2,782 kilometers and a population of 50 million plus. The capital and the largest city in Ukraine is Kiev. The seven neighboring countries are: Belarus, Russia, Slovakia, Hungary, Romania, Moldova and Poland.

Ukraine has temperate continental climate in the mainland with Mediterranean climate on the coastal belt. Winters vary from cool along the Black sea to cold farther inland.

Education for Foreign Students: Ukraine has the Europe's largest international student population, with nearly 20,000 students choosing to broaden their education and life experience in the Ukraine. From the mid-1990's, when international student enrolment was only just reaching 5,000, international education in the Ukraine has come a long way. At present there are more than 3000 Indian students studying in Ukraine in different fields.

Ukraine has always been open to foreign students. There is huge number of institutes of Higher Education in Ukraine and over 30,000 international students are enrolled in various institutes from over 100 countries from Asia, Europe, America and Africa.

Student Life in Ukraine: Ukraine is a place where studying goes beyond the classrooms. Ukraine gives you chance to enjoy intercultural life and learn from the best of the best and prosper as a globally demanded professional.

Currency: Hryvnya (UAH) in the denominations of 200, 100, 50, 10, 5, 2, and Coins are denominated in 50, 25, 10, 5. International ATM cards work in most ATMs.

## MD Medicine (MBBS) in Leading Universities of Ukraine

- Friedrich-Alexander-University Erlangen-Nuremberg, Max-Planck Institute of Plasma Physics (Germany),
- As well as with universities of the Transborder Belarusian-Russian-Ukrainian University Consortium.

## Study MBBS in Philippines

- A former colony of USA follows US pattern of Education
- English is Official Language of Philippines like India.
- 94% of the population speaks English.
- Entire education is in English Medium
- Philippines is the fourth Largest English speaking country in the world.
- Philippines is the highest provider of nurses & Doctors to the USA
- 100% visa for deserving students
- Highest Success rate in USMLE for the last 5 years
- No need to learn any Foreign Language.
- Degree Offered : MD (Equivalent to MBBS in India)
- Philippines attract students from more than 65 countries
- Philippines attracts students from USA, India, Europe, Singapore, Malaysia, Taiwan, Thailand and Hong Kong.
- Simple admission procedure, Easy student visa application process
- Tropical weather like India, whole year Temperature between 20 & 37 degrees
- Philippines is considered one's entry path to Canada, U.S.A. and the U.K.
- The National Statistics Office reports a simple literacy rate of 93.4% and a functional literacy rate of 84.1% for 2003.
- Get Admission in Top Medical Universities of Philippines at affordable tuition fees TODAY!!!

**Placement Options** - Philippines is the largest provider of medical trained nurses and doctors to the U.S.A, Canada and many other countries thus giving an assurance of jobs and the level of trust other countries have on students who have passed out of Philippines universities.

**Superior quality of the educational system** - In Philippines, the teachers are not only fluent in English, but they are mostly US educated.

Philippines is also known as Republic of Philippines is an archipelagic island of Southeast Asia located in the Pacific Ocean. It is known for its rich biodiversity and abundance in natural resources. It is considered to be twelfth populated country in the world. Manila is the capital of the country.

**History** - The country has been a Spanish and American colony in the past. In 1934, the country obtained its Commonwealth status. In October 1945 it became a founding member of United Nations. Post World War II the country was recognized as an independent nation.

**Why Philippines** - High quality education, safe and conducive environment and affordable fee structure and other expenses are one of the primary reasons for international students to opt for higher education in the country.

**Why Philippines is better for Medical Education?** Philippines is rising as one of the top places for providing high quality medical education, at par with the degrees awarded by the universities of the U.S.A and the U.K. Students get the degree of Doctor of Medicine (M.D.) after completing four years degree program which is equivalent to M.B.B.S in India.

In the first year, the basics of medical sciences are taught. From the second year onwards, these courses focus on specialized areas. Fourth year includes clinical rotation in different departments.

Degree is recognized by MCI (IMC Act 1956), WHO, GMC, ECFMG, California Board of Medicine, CFGNS, USMLE (USA) & CHED - Govt. of Philippines, UK, Singapore, Canada, Australia, Gulf Countries, whole Europe etc. Graduates can apply for license with Medical Councils of more than 180 countries. After Graduating & passing the screening test in India conducted by the NBE Delhi students can apply for Government jobs & also join Post Graduation in India.

<b>Philippines</b>	<b>China / Russia / Kyrgyzstan / Kazakhstan/ Georgia / Armenia</b>
American / US pattern of Education	Non-American Pattern of Education
English is an official language of Philippines with Filipino. Philippines a former colony of USA & has strong ties with US. 94% of population speaks English. It is the 3rd largest English speaking country.	Chinese / Russian: Is the official language. Medical Students need to learn the local language
Patients talk in English. Excellent exposure to practical Internship	Patients speak local language – very difficult to understand & follow
Strong culture of USMLE preparation and going to the USA for jobs. Many toppers go to USA from Philippines.	No culture of USMLE preparation or going to USA for jobs
Have tie ups with US Colleges for Clinical clerkship / rotation. Recommendation letters help in getting jobs in the USA after graduation	No such tie-ups or culture in China / Russia / Kyrgyzstan etc
Tropical country with diseases common in India such as Malaria, Typhoid etc. Good training & clinical experience for students.	Temperate country. Cold. Snows for 3-6 months in a year. No tropical diseases. No experience in these diseases.
Indian food, Asian foods available in Manila	Food is expensive and Indian food not easily available
Weather: Tropical – like India ranges from 21 to 37 degrees.	Temperate: Winter temperature is -20 (minus 20 degrees)

- ECFMG certification and USMLE examinations for working in the USA.
- Canadian & Australia Medical Council licensing & State registration exams.
- UK PLAB & Ireland registration exams.
- MCI Screening Test for Registration in India.

Degree is recognized by

- California Board of Medicine, CFGNS USA & CHED - Govt. of Philippines, MCI.

Why Perpetual? - University of Perpetual Help System Dalta (UPHSD) has been providing quality education for more than 40 years. UoPH nurture students to become accomplished professionals who get employed not only in the Philippines but also abroad. We focus on the total development of our students, beginning with character building to mastery of skills, thus enable our graduates to get ahead in their careers.

Quality Education Program - We ensure high quality education to make students more competent. Our experience in the past forty years have allowed us to develop a comprehensive curriculum that allows students to understand and master the subject matter fully, enriching their learning experience.

We own and maintain a tertiary teaching and training hospital where students learn and acquire skills required by their healthcare professions. Our students are surrounded in an environment that encourages proficiency in their chosen field. This immersion in a workplace environment creates graduates that are mentally and emotionally ready to face the challenging demands of the real world.

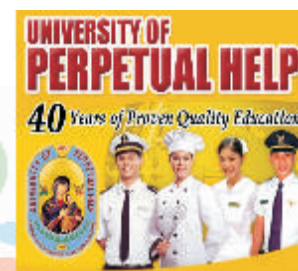

Every year, a UPH graduate emerges at the top ten of certified board exams. We work hand in hand with our students to ensure that they learn for understanding, from the classroom to the review session and that is clearly reflected after they graduate.

Highly Competent & Caring Faculty and Administrators - are also friends, consultants, advisors and mentors who nurture students to develop their full potential. Theoretical knowledge and applied training are delicately balanced thus providing a holistic approach to learning.

Modern Equipment & Facilities - The University continually updates its modern facilities and equipment to prepare students with the required skills for evolving industry needs.

Curriculum -

- The first year covers the normal Human Anatomy, Biochemistry, Physiology, Preventive Medicine & Community health, Psychiatry and Medical Practice I.
- The second year deals with Pathology, Microbiology, Parasitology, Pharmacology, Preventive Medicine and Community Health, Psychiatry II and Medical Economics plus introductory courses in clinical subjects
- The third year involves didactic lectures on common diseases encountered in clinical practice as well as interesting or rare conditions. Pathophysiology is reviewed while clinical features, diagnostic approaches and principles of management are emphasized.
- The fourth year or clinical clerkship is mainly spent in actual patient care with the JONELTA section of the University of Perpetual DALTA Medical Center serving as the clinical laboratory. Hospital rounds and group discussions give the student a good perspective on bedside manners, diagnosis and management.
